Team Name: **Reboot Assessment Date:**

Strategic Canvas for Rebooting an Agile Team

Leadership	Vision	Management Style	Quality	Engagement
Are your leaders focused on Command and Control? Describe how teams are currently organizing themselves today.	What kind of value do you want the teams to deliver in the short-term?	Describe the management style of the current leaders in the organization.	What is the quality strategy of the team?	Who will support change and promote it in the organization?

What is the curent emotional state of the team on the essential ingredients?

5	4	3	2	1

The more positive the emotions are at the beginning of the reboot, the more painful the intervention will be…

Reboot Dimensions

Product Ownership	Roles & Skills	Team & Processes	Technology & Delivery
What is the Vision? Are we defining features for our users? Are User Stories actionable? Define how the Business syncs with Engineering.	Do you have the right roles defined for an Agile team? Do you have the right mindset and skills to fill the roles?	Do you have stable Scrum teams? Are you working with fixed iterations to deliver DONE functionalities?	What practices is your Scrum team using? What kind of test automation are you using? How frequently are you releasing?

Sprint 3

Before
Current identity and
work methods

Sprint 2

After
Future identity and
desired dynamic

Sprint 4

The Edge
Change & Comfort Model
by M&M

Sprint 1

Sprint 5

ENGAGEMENT
